

# PROJECT 5 Install a sliding window stay

BEFORE

## WHAT YOU NEED

sliding stay set with screws, Phillips screwdriver

### STEP 1

Hold the slide bar to the window to determine which side up it fits into the peg (the screw-like stopper attached to the stay).

### STEP 2

Insert the slide in the peg.

### STEP 3

Place the peg, slide and stay in the right position on the window frame and fasten the screws.
