### STEP 1

Remove loose, flaking paint from the wall with a scraper. Brush to remove dust.

### STEP 2

Apply the primer with the roller and leave to dry.

### STEP 3

Apply two coats of Dulux Weatherguard (Brilliant White) for a good finish.

**TIP:**

**AS WITH ALL PAINT JOBS, THOROUGHLY CLEAN THE WALL BEFORE APPLYING PAINT. THIS WILL ENSURE THE SURFACE REMAINS SMOOTH IN THE LONG TERM.**
