Cashbuild carries an in-depth quality product range tailored to the specific needs of the communities we serve. Our customers are typically home-builders and improvers, contractors, farmers, traders, large construction companies and government-related infrastructure developers, as well as all other customers requiring quality building materials at lowest prices.

Cashbuild has built its credibility and reputation by consistently offering its customers quality building materials at the lowest prices and through a purchasing and inventory policy that ensures customers' requirements are always met.

INTERNATIONAL FINANCIAL REPORTING STANDARDS
The group is reporting its audited interim results in accordance with International Financial Reporting Standards ("IFRS").

FINANCIAL HIGHLIGHTS
Revenue for the half-year increased by 9% whilst profit decreased by 26%. This decrease in profit was as a result of a decrease in gross profit margins in percentage terms of 1.2%, resulting in a decrease in operating profit of 24%. Finance income decreased by 36%. Basic earnings per share decreased by 26%, whilst headline earnings per share decreased by 27%. Net asset value per share has shown a 15% increase, from 2 151 cents (December 2008) to 2 484 cents. Cash and cash equivalents increased by 9% to R638 million.

Stores in existence since the beginning of July 2008 (pre-existing stores - 170 stores) accounted for 3% of the increase in revenue with the remaining 6% increase due to the 18 new stores the group has opened since July 2008. This increase for the half-year has been achieved in tough trading conditions with selling price inflation of 1%. The excellent growth in customer transactions of 13%, of which 6% is from the existing store base, is encouraging and bodes well for the future.

Due to the competitive environment, gross profit margins of 20.3% remained under pressure throughout this trading period and were 1.2% lower than the 21.5% achieved for the comparative half year. They were however, at similar levels to that of the 2nd half of the prior financial year.

Operational expenses for the half-year remained well controlled with existing stores accounting for 8% of the increase and new stores 5%. The total increase for the year amounted to 13%. The main contributor to the increase on existing stores, is the continued investment in people to maintain and improve customer service standards.

The effective tax rate for the half-year of 31.6% is 1% higher than that of the previous half-year, mainly due to assessed losses in a subsidiary having now been fully utilised.

Cashbuild's financial position remains solid. Stock levels have decreased by a pleasing 9%, in spite of the stocking of seven additional stores since the previous half year-end. Overall stockholding at 68 days (December 2008: 79 days; June 2009: 84 days) showed an improvement on the position as at December 2008. Management of stock will remain a focus area for the year to come. Trade receivables remain well under control.

During the half-year Cashbuild opened five new stores. Four stores were refurbished and none relocated. Cashbuild will continue its store expansion, relocation and refurbishment strategy in a controlled manner, applying the same rigid process as in the past.

PROSPECTS
Management remains optimistic about the top line trading prospects for the next quarter based on the fact that the first nine trading weeks since half year-end have shown an increase in revenue of 6% on that of the comparable nine weeks. Gross profit margins are expected to remain under pressure for the quarter under review.
