COMMENTARY

NATURE OF BUSINESS

Cashbuild is southern Africa's largest retailer of quality building materials and associated products, selling direct to a cash-paying customer-base through our constantly expanding chain of stores (200 at the end of this financial year). Cashbuild carries an in-depth quality product range tailored to the specific needs of the communities we serve. Our customers are typically home-builders and improvers, contractors, farmers, traders, large construction companies and government-related infrastructure developers, as well as all other customers requiring quality building materials at lowest prices.

FINANCIAL HIGHLIGHTS

The commentary below relates to statutory results. For a 52 week vs 52 week comparison, refer to the pro-forma information in Note 6 above.

Revenue for the year increased by 1% whilst gross profit decreased by 1%. Operating profit decreased by 19% largely due to operating expenses increasing by 6%. Basic earnings per share decreased by 16% and headline earnings per share decreased by 18%. Net asset value per share has shown a 13% increase, from 3 877 cents (June 2012) to 4 379 cents. Cash, cash equivalents and financial assets have decreased by 49% to R249 million as a result of increased capital expenditure and stockholding.

Stores in existence since the beginning of July 2011 (pre-existing stores - 187 stores) decreased by 1% in revenue and the 13 new stores contributed 2%. This increase for the year has been achieved in tough trading conditions with selling price inflation of 2%. As anticipated, gross margin percentage has decreased to more normalised levels of 22.8%.

Operational expenses for the year remained well controlled with existing stores accounting for 3% of the increase and new stores 3%. The total increase for the year amounted to 6%. The main contributor to the increase on existing stores was systems related, due to the roll-out of the new IT system that was completed during the year.

The effective tax rate for the year of 29% is 3% lower than that of the previous year, mainly due to the change from STC to a dividend withholding tax.

Cashbuild's statement of financial position remains solid. Stock levels have increased by 33%, with overall stockholding at 83 days (June 2012: 63 days). Trade receivables remain well under control.

During the financial year, Cashbuild opened nine new stores, 20 stores were refurbished and six stores were relocated. Cashbuild will continue its store expansion, relocation and refurbishment strategy in a controlled manner, applying the same rigorous process as in the past.

PROSPECTS

Despite tough trading conditions, management is positive about the top line trading prospects for the next quarter. The first eight trading weeks since year-end have reported an increase in revenue of 10% on that of the comparable eight weeks, whilst the gross margin remained under pressure. This general forecast has not been reviewed nor audited by the company's auditor.
